

WAINUA™ (eplontersen) ENROLLMENT FORM

This resource highlights important sections of the WAINUA Enrollment Form that offices and healthcare providers should note when enrolling their patients into the AstraZeneca Access 360™ program and requesting select patient access services. Use the callouts below and on the next page to review key sections and additional instructions for some of the form fields.

Patient Authorization

Page 2 of the form details the authorization of the patient to release specific personal information to Access 360 and states that the WAINUA Support Program is available to help patients cover drug costs if they meet certain eligibility criteria. This page does not need to be faxed.

Patient Information

All fields in Section 1 need to be completed.

Checking "Yes" under the "OK to contact patient?" prompt will allow Access 360 to reach out to the patient if more information is needed.

Patient Signature

The patient's (or their LAR's) signature in this section authorizes Access 360 to follow up on the patient's behalf with the insurance company and Specialty Pharmacy.

This signature also enables:

- 1) an FRM to work with the office on patient-specific issues, such as PA and affordability challenges;
- 2) a PEM to provide support to the patient, if desired; and
- 3) the office to obtain assistance with appeals and denials

The checkbox in this section allows Access 360 to enroll the patient into the WAINUA Savings Program (eligibility rules apply) and to send the patient additional resources.

Form Instructions

Fax only pages 1 and 3 of the form to this number. Be sure to send all relevant communication or letters from the payer, including any denial or approval letters.

Services Provided by Access 360

Completion of this form allows you to enroll a patient into Access 360 and the appropriate support program.

Completion of the form may provide the following services, if needed: Benefits investigation research; PA follow-up, including tracking status of PA and appeals support; transfer of prescription to Specialty Pharmacy if Section 5A is completed; co-pay support for eligible patients; and select patient services.

Patient Education Managers

If only Patient Education Manager (PEM) services are desired, complete Sections 1, 2, 3, and 4 of this form. PEMs do not provide medical advice or medical consultation. Patients are directed to speak with their healthcare provider regarding medical issues. Please contact your Field Reimbursement Manager (FRM) if you have any questions about PEM services.

Clinical Information

Accurate and current clinical data are essential when filling out this form. This section requires you to select or fill in a diagnosis code. It is optional to list any relevant treatment(s) the patient is currently receiving and identify whether WAINUA will be replacing one of those current treatments.

Office Contact Information

Section 4 is a critical section that facilitates communication between the office and Access 360.

This section requires the prescribing provider's name and NPI # as well as contact information for the office. The phone number, fax number, and email can refer directly to the office contact who will be responsible for managing the patient's access to therapy.

Prescriber Signature

This part of Section 5 requires the prescribing healthcare provider's information and MUST be signed by that specific individual if this form is being used to fill a prescription for WAINUA via Orsini Specialty Pharmacy. This is the only section that requires the prescriber's signature. It also requires the prescriber's name, NPI #, and state license #.
