Your Support Teams

With AstraZeneca Patient Support, a dedicated support team is available to help patients and HCP staff navigate reimbursement, disease education, and more.

Field Reimbursement Managers

AstraZeneca Field Reimbursement Managers (FRMs) are a source for patients, healthcare providers, and office staff. FRMs provide regional, patient-specific support and have extensive expertise that can help streamline access and reimbursement for select AstraZeneca medicines.

Your FRM can provide:

- Access and reimbursement support for providers and office staff, onsite or via telephone*
- Personalized support to help connect patients to affordability programs
- Resources to educate providers and office staff about support services offered by AstraZeneca Access 360
- Timely responses to questions about access and reimbursement
- Assistance with requesting Free Limited Supply in the event of an insurance delay

Patient Education Managers

Patient Education Managers (PEMs) serve as a dedicated point of contact for patients who have been prescribed WAINUA. While patients should always contact their healthcare provider with any questions, they can also connect directly with a PEM.

Each PEM can:

- Offer information about WAINUA and the condition it is approved to treat
- Provide updates during the insurance approval process
- Share resources on how to take WAINUA

*Please note that FRMs are not able to file claims on behalf of providers or office staff.
